

# PLANNING AND ENVIRONMENTAL LINKAGES (PEL) STUDY

## Overview

The Michigan Department of Transportation (MDOT) has identified the segment of US-131 between M-11 (28th Street) and Wealthy Street in downtown Grand Rapids as a priority zone to be analyzed in a PEL study. This segment has the highest traffic volumes in the area, aging pavement and bridges, closely spaced interchanges, and safety concerns. The study area incorporates portions of the cities of Grand Rapids and Wyoming.

## Public Open House

Please join MDOT and the City of Grand Rapids for a public open house to learn more about the US-131 PEL study and conceptual improvement options. The open house will include poster boards, maps and a presentation for specific PEL topics. The team will be available to answer questions.

**Nov. 8, 2023**

**1 - 3 p.m.**

**Kroc Center**

**2500 Division Ave. S**

**Nov. 9, 2023**

**5 - 7 p.m.**

**201 Market Ave. SW**

## Study Needs

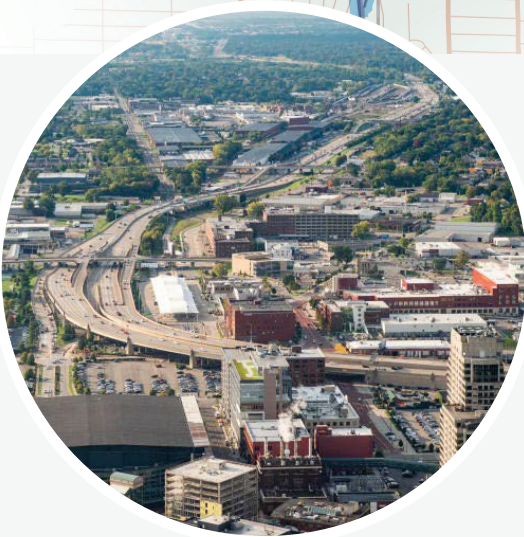

-  Modernizing interchanges
-  Improving safety
-  Relieving congestion
-  Upgrading infrastructure conditions
-  Improving freight access
-  Enhancing multimodal connectivity
